AAPM Applauds Introduction of Senate Companion to VA Medical Physicist Pay Cap Relief Act

WASHINGTON, DC — The American Association of Physicists in Medicine (AAPM) applauds Senators Tim Kaine (D-VA) and John Boozman (R-AR) for introducing Senate companion legislation to [H.R. 3489, the Department of Veterans Affairs Medical Physicist Pay Cap Relief Act](#). The bipartisan legislation would remove the restrictive pay cap on VA Therapy and Diagnostic Medical Physicists, which has hindered veterans' access to essential care and worsened staffing shortages at VA medical centers.

The Senate legislation builds on bipartisan momentum in the House, where Representatives Sheila Cherfilus-McCormick (D-FL) and Juan Ciscomani (R-AZ) reintroduced H.R. 3489 earlier this Congress.

"Medical physicists are essential members of the clinical care team, helping ensure that imaging and radiation treatments are accurate and safe—especially for patients with cancer," said Robin Miller, President of the American Association of Physicists in Medicine. "Passing this legislation would help ensure veterans receive the highest-quality radiology and radiation oncology care. We commend Senators Tim Kaine and John Boozman for their leadership and commitment to improving care for veterans nationwide."

AAPM and the American Society for Radiation Oncology (ASTRO) have endorsed the Senate companion legislation. The bill is also supported by leading veterans service organizations, including the American Legion, Vietnam Veterans of America (VVA), and the Veterans of Foreign Wars (VFW).

About AAPM

The American Association of Physicists in Medicine ([AAPM](#)) is the premier organization in medical physics, a scientific and professional discipline that uses physics principles to address a wide range of biological and medical needs. The mission of AAPM is to advance medicine through excellence in the science, education, and professional practice of medical physics. Currently, AAPM represents over 10,000 medical physicists in over 96 countries.

*The Association's Journals are Medical Physics and Journal of Applied Clinical Medical Physics
Member Society of the American Institute of Physics and the International Organization of Medical Physics*
