

Volumetric Cine MRI (VC-MRI) Using Motion Modeling, Free-form Deformation and Multi-slice Undersampled 2D Cine MRI Reconstructed with Spatio-Temporal Low-Rank Decomposition

Abstract ID: 39994 | Session Title: Tracking and Motion Management
Data and Time: 08/01/2018, 1:45 PM – 3:45 PM | Presenting Author: Wendy Harris

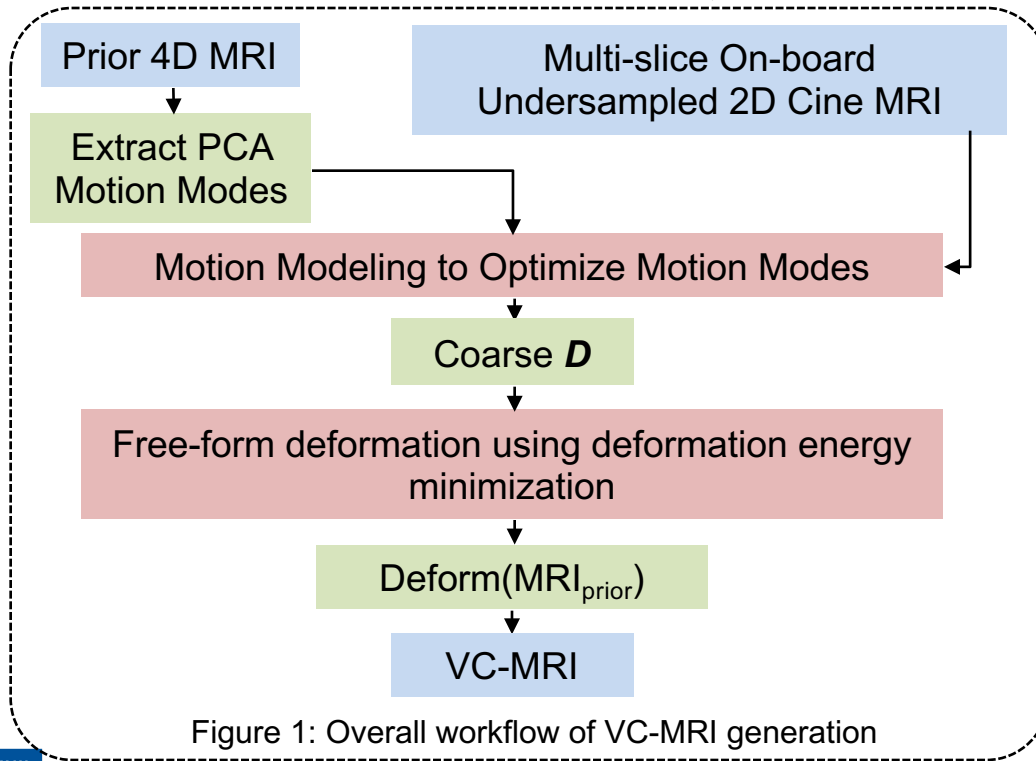

Figure 1: Overall workflow of VC-MRI generation

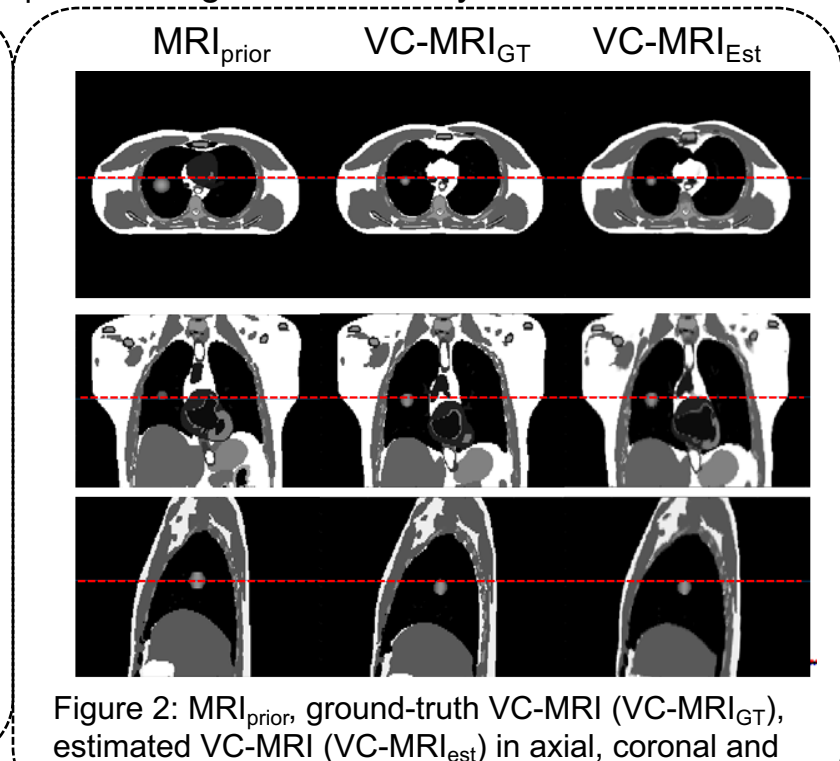

Figure 2: MRI_{prior} , ground-truth VC-MRI ($VC-MRI_{GT}$), estimated VC-MRI ($VC-MRI_{Est}$) in axial, coronal and sagittal views. Red lines indicate areas for comparison
